Subject: January 18, 1991 Edition, Articles by Ron Crawford, Bay News Staff Writer

Gentlemen:

Mr. Crawford wrote the two front page articles of the January 18, 1991 publication. Those articles involved two, rather complex issues dealing with County Government activities. One was a summary of eight different County Service Area No. 9 proposed budgets for Fiscal Year 1991-92; and the second was a review of the January 15, 1991 meeting concerning the proposed formation of a community services district in the South Bay to provide those same CSA 9 services.

Since I work closely with those issues in my position with the County Engineering Department, I understand how complex that material can be to the average citizen, and I was quite favorably impressed with the accuracy and clarity of the two articles by Mr. Crawford.

I look forward to your newspaper's future articles on such matters affecting the South Bay area.

Sincerely,

*Noel King*

(SewerWatch note - 7/11/07: I blacked out the publishers' names to save them a headache, and that second black-outish looking thing is from a highlighter pen. If you're having a hard time seeing it, it reads: "I was quite favorably impressed with the accuracy and clarity of the two articles by Mr. Crawford.")
